To Whom It May Concern:

I am pleased to write this recommendation for Anthony Lazar. Anthony and I worked together for Citizen Science Inc. - a team of health and technology professionals who aimed to build a platform that is a go-to resource for practical behavioral health interventions. His role as a Web Developer was crucial to the creation and maintenance of the application.

Anthony was reliable and resourceful in his position. Anthony designed, developed, and integrated the front-end and back-end of the web application. He was highly motivated to learn new technologies and effectively applied this knowledge and skills to build a functional product. In addition, Anthony was a great team player and always contributed constructively to discussions. He helped guide and onboard new members and resolved any questions they had. He was articulate, approachable and was a pleasure to work with.

I am confident that Anthony's enthusiasm, initiative, and eagerness to make an impact will enable him to positively contribute to any organization he joins.

Please don't hesitate to contact me if you have any further questions. I can be reached at prima27@gmail.com or +1-617-852-7675.

Sincerely,

Prima Aranha
